

Project Title:

Manual Testing Project - OrangeHRM Demo Application

Prepared by:

Jainamkumar Mukeshbhai Mochi

Date:

3rd July 2026

1. Introduction

Objective:

To perform comprehensive manual functional testing of OrangeHRM Open-Source Demo application, validate key HR workflows, identify defects, and create detailed test documentation.

Application URL:

<https://opensource-demo.orangehrmlive.com/>

Test Environment:

Chrome Browser

2. Test Cases

Test Case ID	Module	Test Scenario	Steps	Expected Result	Actual Result	Status
TC-01	Login	Successful Admin Login	1. Open URL 2. Enter Username: Admin 3. Enter Password: admin123 4. Click Login	User should login and Dashboard should load	Dashboard loaded successfully	Pass
TC-02	Login	Invalid Login Attempt	1. Enter wrong password	Clear error message "Invalid credentials"	Error message displayed correctly	Pass
TC-03	PIM	Add New Employee	1. Go to PIM → Add Employee 2. Fill First Name, Last Name, Employee Id 3. Click Save	New employee record created	Employee added successfully	Pass
TC-04	PIM	Search Existing Employee	1. Go to Employee List 2. Search by First Name	Matching employee should appear in results	Employee found in search results	Pass
TC-05	PIM	Edit Employee Information	1. Search employee 2. Click Edit 3. Update Middle Name	Updated details should be saved	Details updated successfully	Pass

Test Case ID	Module	Test Scenario	Steps	Expected Result	Actual Result	Status
TC-06	Admin	Create New System User	1. Go to Admin → Add User 2. Fill all required fields 3. Save	New user should be created	User created successfully	Pass
TC-07	Leave	Apply for Annual Leave	1. Go to Leave → Apply 2. Select Annual Leave 3. Choose dates 4. Apply	Leave request should be submitted	Leave request submitted for approval	Pass
TC-08	Leave	Check My Leave List	1. Go to My Leave	Applied leave should be visible	Leave record visible in list	Pass
TC-09	Recruitment	Add New Candidate	1. Go to Recruitment → Candidates → Add 2. Fill candidate details	Candidate should be added	Candidate added successfully	Pass
TC-10	Dashboard	Verify Quick Launch Panel	1. Login and check Quick Launch icons	All quick launch options should be clickable	All icons working properly	Pass
TC-11	Logout	Successful Logout	1. Click user profile → Logout	User should return to login page	Logged out successfully	Pass

3.Defects / Bugs Found

Bug ID	Module	Bug Title	Severity	Steps to Reproduce	Expected Result	Actual Result	Status
B-01	PIM	First Name accepts Numbers	High	Add employee with name "John123"	Only alphabets should be allowed	Accepts numerical values	Open
B-02	Leave	Past dates allowed in Leave Application	Medium	Try to apply leave using past dates	Validation error should appear	Allows past dates	Open
B-03	Admin	Misaligned labels on Add User page	Low	Open Admin → Add User page	Proper alignment	Some text labels are misaligned	Open
B-04	Recruitment	No proper validation on email field	Medium	Add candidate with invalid email (e.g., test@com)	Proper email format validation	Accepts invalid email format	Open
B-05	PIM	Employee ID field accepts special characters	Medium	Enter special chars (@#%) in Employee ID	Only alphanumeric allowed	Accepts special characters	Open

4.Conclusion

Summary:

Successfully executed **11 functional test cases** covering major modules of OrangeHRM. Identified **5 defects** during testing. This project provided hands-on experience in manual testing, test case writing, bug reporting, and understanding of HR management system workflows.

Skills Demonstrated:

- Functional Testing
- Test Case Design & Execution
- Defect Logging & Reporting
- Web Application Testing
